

DuPont

Album	Photo #	Descriptions	Collection
DuPont	1	ORIGINAL WATER TOWER INSTALLED FOR SILICON PLANT	Doris Jones
DuPont	2	1957 CHEVROLET STATION WAGON PURCHASED FOR SILICON PLANT MAIL SERVICE. Area enclosed with tarps is the result of climatological data failure. A permanent enclosure was later constructed to accommodate colder than anticipated outside air temperatures. 1963-1964.	Doris Jones
DuPont	3	FINISHING AREA UNDER CONSTRUCTION. FINISHED ROLLS OF MEDICAL imaging film (X-ray film) were shipped from Parlin, NJ for cutting and packaging at Brevard until the film manufacturing areas were completed. TC1 building is to the upper right. April 10, 1962	Doris Jones
DuPont	4	CONSTRUCTION WAREHOUSE AND MATERIALS STORAGE (LAY DOWN) YARD. Note that the negative for this photograph was reversed during printing so it may be confusing to those who remember the correct orientation of the buildings.	Doris Jones
DuPont	5	COMPLETED FINISHING AREA July 7, 1962	Doris Jones
DuPont	6	CONTINUOUS POLYMERIZATION UNIT UNDER CONSTRUCTION. FILM MANUFACTURING BEGINS HERE. Negative for this photo is reversed. September 4, 1962	Doris Jones
DuPont	7	PE BUILDING (POLYESTER BUILDING) November 1962	Doris Jones
DuPont	8	ORIGINAL POWER HOUSE AREA WITH TWO BOILERS FIRED WITH #2 FUEL OIL. In 1973 a natural gas line was completed adding natural gas & #6 fuel oil. November 1962	Doris Jones
DuPont	9	1B or Original Coater the light sensitive emulsion was applied to the film in this area. All personnel working in the coating area were in the dark. The film traveled as a long sheet called a web. A single flashlight beam pointed the wrong way would expose the film and create a mark that may be 100 yards or more long. Concrete footers for the power house stacks are in the foreground. November 1962	Doris Jones
DuPont	10	ORIGINAL POWER HOUSE. WHITE TANK IS FOR DRINKING WATER. December 1962	Doris Jones
DuPont	11	1B COATER December 1962	Doris Jones
DuPont	12	1B COATER March 15, 1963	Doris Jones
DuPont	13	CONTINUOUS POLYMERIZATION	Doris Jones
DuPont	14	FILM STRETCHING AREA IS THE FOREGROUND OF THIS PHOTOGRAPH December 1962	Doris Jones
DuPont	15	CONTINUOUS POLYMERIZATION March 15, 1963	Doris Jones
DuPont	16	1B COATER. THIS ORIGINAL COATER CONTAINED A FESTOON DRYER. The film was hung on sticks placed horizontally along the dryer. While drying it resembled a stationary inch worm. Air was forced along the film parallel to the sticks.	Doris Jones
DuPont	17	1B COATER.	Doris Jones
DuPont	18	CONTINUOUS POLYMERIZATION 1964	Doris Jones
DuPont	19	CONTINUOUS POLYMERIZATION 1963 Area enclosed with tarps is the result of climatological data failure. A permanent enclosure was later constructed to accommodate colder than anticipated outside air temperatures. 1963-1964.	Doris Jones

DuPont	20	CONTINUOUS POLYMERIZATION JUNE 1964. LINE 1	Doris Jones
DuPont	21	CONTINUOUS POLYMERIZATION	Doris Jones
DuPont	22	ROOF AREA JUNE 1964	Doris Jones
DuPont	23	CASTING AND STRETCHING LINE 3. THE POLYMER EXTRUDED ONTO A LARGE rotating wheel in the casting area. The formation of the sheet of web began at the discharge of the casting wheel. (20" wide wheel) 2/74	Doris Jones
DuPont	24	THE TANK IN THIS PHOTOGRAPH IS A WATER CLARIFIER FOR THE POWER HOUSE 2/1974	Doris Jones
DuPont	25	TWO DOWTHERM VAPORIZERS AND TWO BOILERS (probably oil fired at the time of the photograph). Dowtherm is a low pressure high heating medium. 2/1974	Doris Jones
DuPont	26	TANK BY THE DOWTHERM VAPORIZERS. 2/1974	Doris Jones
DuPont	27	CASTING AND FILM STRETCHING AREA. 2/1974	Doris Jones
DuPont	28	CENTER OF PHOTO IS 1B STORAGE VAULT WHERE BASE ROLLS OF FILM (emulsion coating is not yet applied) were stored. Beam racks to the right. 2/1974	Doris Jones
DuPont	29	Selvage collection area Film Trimmings were collected here for recycling 2/1974	Doris Jones
DuPont	30	POWER HOUSE AS IT LOOKED IN FEBRUARY OF 1974. WORK TANK CONTAINED OIL.	Doris Jones
DuPont	31	TOTE BINS TO THE LOWER LEFT OF THE PHOTOGRAPH ARE FOR DMT inbound to the site. Note that the Research & Development Building is not yet constructed in this photograph. Molten dimethylterthalate shipped from Cape Fear, NC and Old Hickory, TN is in the horizontal tank. 2/1974	Doris Jones
DuPont	32	ALL WATER SUPPLIED TO THE TANK IN THIS PHOTOGRAPH COMES FROM A CANAL reaching to the Little River. 2/1974	Doris Jones
DuPont	33	METHANOL CONDENSER IS SUSPENDED FROM THE CRANE BOOM. The gearbox at the bottom left of the photograph is for the extruder that forced polymer through the filters.	Doris Jones
DuPont	34	POWERHOUSE. TWO WHITE TANKS ARE FIRE PROTECTION WATER. The pumphouse adjacent to the two white tanks protects the fire water pumps.2/1974	Doris Jones
DuPont	35	CASTING AND STRETCHING ROOF IS AT THE BOTTOM OF THE PHOTOGRAPH. The gel warehouse and TC3 Building are to the left. 2/1974	Doris Jones
DuPont	36	THE TWO WHITE TANKS IN THE CENTER OF THE PHOTOGRAPH HOLD WATER FOR FIRE protection use. The white tank to the right of the photograph holds oil for the boilers. The top of the Power House clarifier is shown at the bottom right. The trailers are docked at the Base Packing Warehouse. 2/1974	Doris Jones
DuPont	37	1B COATING AREA IS THE LONG BUILDING TO THE RIGHT. Trailer is docked at the Gel (gelatin) Warehouse. Door to the right of the photograph is at the top of the coater and provides access to "fan alley".	Doris Jones
DuPont	37A	DuPont plant color photo	
DuPont	38	IMPURITIES WERE REMOVED FROM WASTE WATER USING A SERIES OF waste water treatment ponds. 2/1974	Doris Jones
DuPont	39	POWER HOUSE BEFORE 1975. EQUIPMENT IN THIS PICTURE IS DUAL FIRED burning either natural gas or oil for fuel.	Doris Jones

DuPont	40	TO THE LEFT IS FIRST COPOLYMERIZATION UNIT. TO THE RIGHT IS THE 2B coater. The 2B coater contains a spiral dryer.	Doris Jones
DuPont	41	LEFT TANK CONTAINS METHANOL, CENTER IS RECOVERED GLYCOL, and right is virgin glycol. Tote bins to the bottom of the photo are for DMT (dimethylterathalate).	Doris Jones
DuPont	42	COPOLYMERIZATION, CASTING AND STRETCHING LINES.	Doris Jones
DuPont	43	CASTING LINE 5 BASEMENT October 31, 1974	Doris Jones
DuPont	44	COPOLYMERIZATION LINE 5 BASEMENT October 31, 1974	Doris Jones
DuPont	45	CASTING LINE 5 BASEMENT October 31, 1974	Doris Jones
DuPont	46	ADMINISTRATION BUILDING AS IT LOOKED IN THE MID 1970'S. File note: a negative is stored between photos 46 & 47.	Doris Jones
DuPont	47	RESEARCH AND DEVELOPMENT BUILDING. Fill rock came from the Guyon Farm (probably the headwaters of Grassy Creek) and Buck Forest Hunting Preserve. Photo is from 1984 2 copies	Doris Jones
DuPont	49	3B COATER CONSTRUCTED 1981 TO 1983. Architect Drawing	Doris Jones
DuPont	50	ACCUMULATOR AREA WHERE ROLES OF FILM ARE JOINED.	Doris Jones
DuPont	51	BASE OF THE DISTILLATION COLUMN AND THE ESTER EXCHANGE BOILER.	Doris Jones
DuPont	52	ANTIMONY AND ZINC TANKS	Doris Jones
DuPont	53	COPOLYMERIZATION CONTROL ROOM	Doris Jones
DuPont	54	FINISHER	Doris Jones
DuPont	55	MELTHOUSE	Doris Jones
DuPont	56	FINISHER	Doris Jones
DuPont	57	MAN IN CENTER OF PHOTO IS DENNIS BARTON'S BROTHER AVERY. He is holding an asbestos "O" ring for the extruder screw. The man with the tie is the manufacturing supervisor, Marty Flynn. The other two men are construction division employees.	Doris Jones
DuPont	58	TEFLON GASKET FOR THE EXTRUDER SCREW.	Doris Jones
DuPont	59	EXTRUDER SCREW	Doris Jones
DuPont	60	EXTRUDER SCREW	Doris Jones
DuPont	61	CONTROL VALVE. ADJACENT VESSEL IS DOWTHERM JACKETED.	Doris Jones
DuPont	62	PIPE FROM FINISHER TO EXTRUDER.	Doris Jones
DuPont	63	CONTINUOUS POLYMERIZATION UNIT CONDENSER FOR VOLITOLES FROM FINISHER	Doris Jones
DuPont	64	MAIN EXTRUDER SCREW	Doris Jones
DuPont	65	SCREW THAT FEEDS MOLTEN POLYMER TO THE POLYMER WHEEL (CASTING WHEEL)	Doris Jones
DuPont	66	FLANGE TO SUPPORT EXTRUDER SCREW	Doris Jones
DuPont	67	FITTING EXTRUDER SCREW IN THE HOUSING	Doris Jones
DuPont	68	FITTING EXTRUDER SCREW IN THE HOUSING	Doris Jones
DuPont	69	TOPS FOR THE POLYMER FILTERS	Doris Jones
DuPont	70	DIVERTER VALVE	Doris Jones
DuPont	71	POLYMER VALVES	Doris Jones
DuPont	72	SIDE VIEW OF POLYMER VALVE DETAIL	Doris Jones
DuPont	73	POLYMER FILTERS	Doris Jones
DuPont	74	RECYCLE EXTRUDER TO CASTING AREA	Doris Jones
DuPont	75	DOWTHERM BUILDING	Doris Jones

DuPont	76	DOWTHERM ACCUMULATOR	Doris Jones
DuPont	77	PIPE STORAGE	Doris Jones
DuPont	78	DOWTHERM TRAP	Doris Jones
DuPont	79	DIMETHYLTERATHALATE TOTE BINS. BRIDALVALE FALLS IS TO THE LEFT OF THE PHOTO.	Doris Jones
DuPont	80	PARKING AREA AND OLD SILICON FINISHING AREA.	Doris Jones
DuPont	81	CASTING AREA AND TENTER FRAME	Doris Jones
DuPont	82	CASTING LINE BASE OF TENTER FRAME	Doris Jones
DuPont	83	TENTER FRAME SKELETON	Doris Jones
DuPont	84	TENTER FRAME EXIT FROM THE CASTING LINE	Doris Jones
DuPont	85	CASTING LINE HOT AIR DUCTS	Doris Jones
DuPont	86	AIR HANDLING DUCTS FOR TENTER FRAME	Doris Jones
DuPont	87	PROCESS AIR FILTER PLENUMS	Doris Jones
DuPont	88	ESTER EXCHANGE COLUMN. MONOMER CONVERTED TO A POLYMER EARLY IN THE PROCESS	Doris Jones
DuPont	89	LIFTING ESTER EXCHANGE COLUMN INTO PLACE	Doris Jones
DuPont	90	LIFTING ESTER EXCHANGE COLUMN INTO PLACE	Doris Jones
DuPont	91	BOTTOM OF THE ESTER EXCHANGE COLUMN	Doris Jones
DuPont	92	CASTING WHEEL SUPPORT FRAME ON FLAT-BED TRUCK	Doris Jones
DuPont	93	GEAR BOX DRIVE AT END OF TENTER FRAME	Doris Jones
DuPont	94	ENTRANCE TO THE TENTER FRAME IN THE CASTING AREA.	Doris Jones
DuPont	95	POLYMER UNIT	Doris Jones
DuPont	96	TANK ON POLYMER LINE	Doris Jones
DuPont	97	DIMETHYLTERATHALTE PUMPS	Doris Jones
DuPont	98	ESTER EXCHANGE COLUMN AND BOILER.	Doris Jones
DuPont	99	INSULATION AROUND END OF ESTER EXCHANGE COLUMN	Doris Jones
DuPont	100	DuPont Staff--March 13-14, 1969 Front Row: Jim Henderson, Frank Guest, Chuck Lynn, Jim Lund, Jack Merk, Abe Esdell. Middle Row: Jack Hustler, Leo Mozolic, Bob Totin, Floyd raymond, Joe Angello, Loyd Sidwell, Burt Kingsley, Bob Delwiche. Back Row: John Fackler, Dom DiDia, Kuth Johnson, Ray Miller, Tom Smith, Tom McCarthy.	Doris Jones
