Album #	Photo #	Descriptions	Size	Coll.
DuPont	001	ORIGINAL WATER TOWER INSTALLED FOR SILICON PLANT	8x10	Doris Jones
DuPont	002	1957 CHEVROLET STATION WAGON PURCHASED FOR SILICON PLANT MAIL SERVICE. Area enclosed with tarps is the result of climatological data failure. A permanent enclosure was later constructed to accommodate colder than anticipated outside air temperatures. 1963-1964.	8x10	Doris Jones
DuPont	003	FINISHING AREA UNDER CONSTRUCTION. FINISHED ROLLS OF MEDICAL imaging film (X-ray film) were shipped from Parlin, NJ for cutting and packaging at Brevard until the film manufacturing areas were completed. TC1 building is to the upper right. April 10, 1962	8x10	Doris Jones
DuPont	004	CONSTRUCTION WAREHOUSE AND MATERIALS STORAGE (LAY DOWN) YARD. Note that the negative for this photograph was reversed during printing so it may be confusing to those who remember the correct orientation of the buildings.	8x10	Doris Jones
DuPont	005	COMPLETED FINISHING AREA July 7, 1962	8x10	Doris Jones
DuPont	006	CONTINUOUS POLYMERIZATION UNIT UNDER CONSTRUCTION. FILM MANUFACTURING BEGINS HERE. Negative for this photo is reversed. September 4, 1962	8x10	Doris Jones
DuPont	007	PE BUILDING (POLYESTER BUILDING) November 1962	8x10	Doris Jones
DuPont	008	ORIGINAL POWER HOUSE AREA WITH TWO BOILERS FIRED WITH #2 FUEL OIL. In 1973 a natural gas line was completed adding natural gas & #6 fuel oil. November 1962	8x10	Doris Jones

DuPont

Album #	Photo #	Descriptions	Size	Coll.
DuPont	009	1B or Original Coater the light sensitive emulsion was applied to the film in this area. All personnel working in the coating area were in the dark. The film traveled as a long sheet called a web. A single flashlight beam pointed the wrong way would expose the film and create a mark that may be 100 yards or more long. Concrete footers for the power house stacks are in the foreground. November 1962	8x10	Doris Jones
DuPont	010	ORIGINAL POWER HOUSE. WHITE TANK IS FOR DRINKING WATER. December 1962	8x10	Doris Jones
DuPont	011	1B COATER December 1962	8x10	Doris Jones
DuPont	012	1B COATER March 15, 1963	8x10	Doris Jones
DuPont	013	CONTINUOUS POLYMERIZATION	8x10	Doris Jones
DuPont	014	FILM STRETCHING AREA IS THE FOREGROUND OF THIS PHOTOGRAPH December 1962	8x10	Doris Jones
DuPont	015	CONTINUOUS POLYMERIZATION March 15, 1963	8x10	Doris Jones
DuPont	016	1B COATER. THIS ORIGINAL COATER CONTAINED A FESTOON DRYER. The film was hung on sticks placed horizontally along the dryer. While drying it resembled a stationary inch worm. Air was forced along the film parallel to the sticks.	8x10	Doris Jones
DuPont	017	1B COATER.	8x10	Doris Jones
DuPont	018	CONTINUOUS POLYMERIZATION 1964	8x10	Doris Jones
DuPont	019	CONTINUOUS POLYMERIZATION 1963 Area enclosed with tarps is the result of climatological data failure. A permanent enclosure was later constructed to accommodate colder than anticipated outside air temperatures. 1963-1964.	8x10	Doris Jones
DuPont	020	CONTINUOUS POLYMERIZATION AS IT LOOKED IN JUNE 1964. LINE 1.	8x10	Doris Jones
DuPont	021	CONTINUOUS POLYMERIZATION	8x10	Doris Jones
DuPont	022	ROOF AREA JUNE 1964	8x10	Doris Jones

DuPont

Album #	Photo #	Descriptions	Size	Coll.
DuPont	023	CASTING AND STRETCHING LINE 3. THE POLYMER EXTRUDED ONTO A LARGE rotating wheel in the casting area. The formation of the sheet of web began at the discharge of the casting wheel. (20" wide wheel) 2/74	8x10	Doris Jones
DuPont	024	THE TANK IN THIS PHOTOGRAPH IS A WATER CLARIFIER FOR THE POWER HOUSE 2/1974	8x10	Doris Jones
DuPont	025	TWO DOWTHERM VAPORIZERS AND TWO BOILERS (probably oil fired at the time of the photograph). Dowtherm is a low pressure high heating medium. 2/1974	8x10	Doris Jones
DuPont	026	TANK IN THIS PICTURE IS BY THE DOWTHERM VAPORIZERS. 2/1974	8x10	Doris Jones
DuPont	027	CASTING AND FILM STRETCHING AREA. 2/1974	8x10	Doris Jones
DuPont	028	CENTER OF PHOTO IS 1B STORAGE VAULT WHERE BASE ROLLS OF FILM (emulsion coating is not yet applied) were stored. Beam racks to the right. 2/1974	8x10	Doris Jones
DuPont	029	Selvage Coll. area Film Trimmings were collected here for recycling 2/1974	8x10	Doris Jones
DuPont	030	POWER HOUSE AS IT LOOKED IN FEBRUARY OF 1974. WORK TANK CONTAINED OIL.	8x10	Doris Jones
DuPont	031	TOTE BINS TO THE LOWER LEFT OF THE PHOTOGRAPH ARE FOR DMT inbound to the site. Note that the Research & Development Building is not yet constructed in this photograph. Molten dimethylterthalate shipped from Cape Fear, NC and Old Hickory, TN is in the horizontal tank. 2/1974	8x10	Doris Jones
DuPont	032	ALL WATER SUPPLIED TO THE TANK IN THIS PHOTOGRAPH COMES FROM A CANAL reaching to the Little River. 2/1974	8x10	Doris Jones
DuPont	033	METHANOL CONDENSER IS SUSPENDED FROM THE CRANE BOOM. The gearbox at the bottom left of the photograph is for the extruder that forced polymer through the filters.	8x10	Doris Jones

DuPont

Album #	Photo #	Descriptions	Size	Coll.
DuPont	034	POWERHOUSE. TWO WHITE TANKS ARE FIRE PROTECTION WATER. The pumphouse adjacent to the two white tanks protects the fire water pumps.2/1974	8x10	Doris Jones
DuPont	035	CASTING AND STRETCHING ROOF IS AT THE BOTTOM OF THE PHOTOGRAPH. The gel warehouse and TC3 Building are to the left. 2/1974	8x10	Doris Jones
DuPont	036	THE TWO WHITE TANKS IN THE CENTER OF THE PHOTOGRAPH HOLD WATER FOR FIRE protection use. The white tank to the right of the photograph holds oil for the boilers. The top of the Power House clarifier is shown at the bottom right. The trailers are docked at the Base Packing Warehouse. 2/1974	8x10	Doris Jones
DuPont	037	1B COATING AREA IS THE LONG BUILDING TO THE RIGHT. Trailer is docked at the Gel (gelatin) Warehouse. Door to the right of the photograph is at the top of the coater and provides access to "fan alley".	8x10	Doris Jones
DuPont	37A	DuPont plant color photo	8x10	
DuPont	038	IMPURITIES WERE REMOVED FROM WASTE WATER USING A SERIES OF waste water treatment ponds. 2/1974	8x10	Doris Jones
DuPont	039	POWER HOUSE BEFORE 1975. EQUIPMENT IN THIS PICTURE IS DUAL FIRED burning either natural gas or oil for fuel.	8x10	Doris Jones
DuPont	040	TO THE LEFT IS FIRST COPOLYMERIZATION UNIT. TO THE RIGHT IS THE 2B coater. The 2B coater contains a spiral dryer.	8x10	Doris Jones
DuPont	041	LEFT TANK CONTAINS METHANOL, CENTER IS RECOVERED GLYCOL, and right is virgin glycol. Tote bins to the bottom of the photo are for DMT (dimethylterathalate).	8x10	Doris Jones
DuPont	042	COPOLYMERIZATION, CASTING AND STRETCHING LINES.	8x10	Doris Jones
DuPont	043	CASTING LINE 5 BASEMENT October 31, 1974	8x10	Doris Jones

DuPont

Album #	Photo #	Descriptions	Size	Coll.
DuPont	044	COPOLYMERIZATION LINE 5 BASEMENT October 31, 1974	8x10	Doris Jones
DuPont	045	CASTING LINE 5 BASEMENT October 31, 1974	8x10	Doris Jones
DuPont	45A	Empty	8x10	
DuPont	046	ADMINISTRATION BUILDING AS IT LOOKED IN THE MID 1970'S. File note: a negative is stored between photos 46 & 47.	8x10	Doris Jones
DuPont	047	RESEARCH AND DEVELOPMENT BUILDING. Fill rock came from the Guyon Farm (probably the headwaters of Grassy Creek) and Buck Forest Hunting Preserve. Photo is from 1984 2 copies	8x10	Doris Jones
DuPont	048	empty	8x10	
DuPont	049	3B COATER CONSTRUCTED 1981 TO 1983. Architect Drawing	8x10	Doris Jones
DuPont	050	ACCUMULATOR AREA WHERE ROLES OF FILM ARE JOINED.	8x10	Doris Jones
DuPont	051	BASE OF THE DISTILLATION COLUMN AND THE ESTER EXCHANGE BOILER.	8x10	Doris Jones
DuPont	052	ANTIMONY AND ZINC TANKS	8x10	Doris Jones
