Wireless users who do not follow the rules for wireless Internet use may be asked to stop using the Library's wireless connection, be excluded from the Library, and/or be prosecuted. By using this connection, user acknowledge that security errors and hacking are an inherent risk associated with any wireless service.  For that reason, users expressly agree that they knowingly assume such risk, and further agree to hold the Library harmless from any claim of loss arising out of, or related to, any such instance of hacking or other unauthorized use or access into the patron's computer.

- Communication over a wireless network is not secure. The Library assumes no responsibility for the safety of your equipment or data while using the wireless network. The Library highly recommends that all laptops or wireless devices have up-to-date anti-virus software, spyware protection, and a personal firewall installed while utilizing the Library's wireless network.

- Available power outlets may be used wherever the cord does not present a tripping hazard or block access for patrons or staff. Chairs or tables are not to be moved to electrical outlets. It is recommended that you charge your battery before coming to the Library.
